Jewels

Brief description: Two faceted 'jewels'. The patterned one is red while the rest of the glass is clear, while the second 'jewel' is blue.

A 'jewel' is a peace of glass which has been cut, faceted, or press-moulded to resemble a cut gemstone. When used in windows, it creates interesting texture and light effects.

Object type: glass fragment

Number of objects: 1

Production date: 1

Dimensions: Height: 30 mm, Width: 30 mm

Acquisition: gift

Acquisition source: Wigley, George

Accession number: ELYGM:2008.8.11
