# Muff

**Brief description:** Muff glass, with an amber swirl pattern in the glass. There are noticeable air bubbles.

A 'muff' is a cylinder of blown glass. The cylinder is cut off at both ends and then opened and flattened to create a sheet of glass. This sheet can then be cut and used in the making of stained glass windows.

**Object type:** glass fragment

**Number of objects:** 1

**Production date:** 1

**Acquisition:** gift

**Acquisition source:** English Antique Glass

**Accession number:** ELYGM:2008.8.12
